# AIR MANNEQUINS

Diamonds patented Air Mannequin is the best product of its type to be found anywhere.

Now revamped and improved it comes in the Standard Senior size and now also a new Giant size. It now comes unweighted and you receive a heavy duty base, that can be filled with water and inserted into the base of the Airman. This gives the unit balance and stability and improves the performance. You also receive an empty bag that you can fill with sand that can be used in the same way as the water filled base. We think the water filled version works best.

We have improved air retention and the cover is super strong and very hard wearing. Available in Red, Yellow and Blue. Sizes Senior and Giant.

Wheel along trolley available. See website

# DIAMOND MULTI – BOUNCE BOARD SOCCAWALL™

The Diamond Multi-Bounce Board has been designed and is being manufactured in England by Diamond. A superb product, it is a great addition to the coaches' armoury, as it enables them to formulate many different exercises.

*See our website  
for training ideas!*

PROUDLY MADE IN THE UK,  
BY DIAMOND FOOTBALL\*

\* Design registration and patent applied for.

@FIT FORFOOTBALL

THEDIAMOND FOOTBALL

DIAMOND FOOTBALL

DIAMOND FOOTBALL

It is 1m long by 60cm tall and comes with 2 back supports which need to be filled (or part filled) with water or sand to stabilise the unit.

The unique design allows 2 or more boards to be linked together to make a longer wall. The user only has to slide out and re-position one of the back supports to enable this to happen.

Boards can be fitted on the front (flat wall pass return) or the back of the support (slight angled return) to vary the coaches routine.

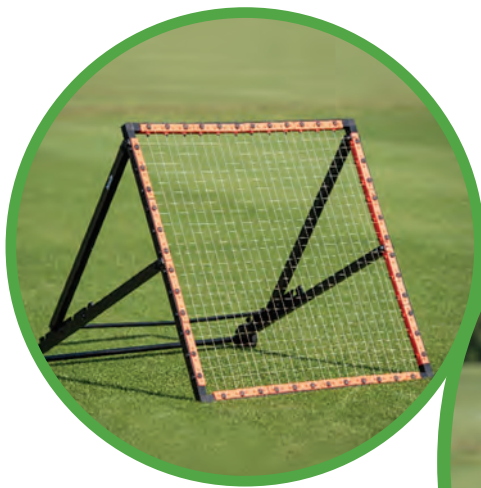

Easily disassembled to fit into the boot of a car. Available in red, yellow, orange or blue.
